

WASHINGTON STATE LIQUOR CONTROL BOARD  
Olympia

March 20, 1979

BULLETIN NO. 125

Post-Off Prices on Wine May be Filed Separately

TO: DOMESTIC WINERIES, WINE CERTIFICATE OF APPROVAL HOLDERS,  
WINE IMPORTERS, AND WINE WHOLESALERS

In order to simplify the procedures for filing "post-off" prices on certain wine items by the wholesalers and other suppliers as noted above, the Board will provide special posting sheets to be used solely for listing such selectively priced items. This system is designed to reduce paperwork by eliminating the need to file complete pages of routinely priced wine items when the supplier merely desires to temporarily feature a number of selected items.

Such special "post-off" sheets will be printed on salmon color paper to provide an easy means of distinguishing these special pages from the regular postings which will continue to appear on white paper only.

The "post-off" price sheets should be used to list the items on which prices are temporarily reduced for a period of one month only. Such special pages will become void and will be removed from the suppliers file at the expiration of the month during which such specials were effective.

Each such item to be posted off under the above conditions must be identified on the special posting form in exactly the same manner as it would be listed on a regular posting sheet, including use of the assigned code number or chemist number.

Changes on price schedules, other than one month "post-offs", should be submitted on the customary white posting forms pursuant to normal procedures.

Please note: All of the board's wine price posting forms have been revised, and now list wine packages in metric sizes. Under federal regulations, such metric system became mandatory on January 1, 1979.

You are reminded that all price schedules, including special "post-off" pages, must be filed on the normal filing dates provided in Rule (81) or (82), as applicable.

The Board hopes that this new method of filing "post-off" prices will be of assistance to you.
